As a result of the reorganization and account responsibility changes, there is a need to familiarize everyone with our Private Label procedures. There is an internal Forsyth Operations Department dedicated to support your overall needs; however, the day to day responsibilities of presenting and implementing Private Label programs will be handled by those of you assigned the direct account or chain headquarters. To this end, we have taken the process previously used and streamlined it for your use as described below.

- First and foremost, it is extremely important that everyone understand the role of Private Label and it's overall relationship to R. J. Reynolds Tobacco Company. Private Label, while profitable to our corporation, should not be viewed as a stand alone program, but a means by which we leverage partnerships with our customers both wholesale and retail. For instance, Private Label presentations should be made in conjunction with our Full Price and Branded Savings programs to ensure an overall advantage for RJR. By combining our programs, we achieve a much stronger #2 position at retail.

In the near future, your Area Vice President will ask your Regional Sales Manager for a target list of prospective Private Label accounts. In the meantime, you should be giving considerable thought to where Private Label can be used to optimize RJR's overall position.

- All Private Label requests by you will be channeled through your respective AVP for concurrence, using Attachment I. It is extremely important to complete this form in its entirety, giving your AVP as much information as possible, so a correct decision can be made. This request must be submitted and approved before you make any presentation.
- If the request is approved, it will be forwarded by the AVP to Forsyth for research of brands available and routing for overall review and approval.
- Forsyth will return appropriate information to your Area Manager of Operations for field notification with a blank Contractual Agreement draft and a current price sheet for use in preparing your presentation. Please note that because of the complexity of pricing such as Fair Trade vs Non-Fair Trade, Wholesale vs Retail, as well as the pricing structure changes we experience from time to time, we will send you a new price sheet for each presentation you make. It is important to note that these documents are very sensitive and should be shared only on a need-to-know basis.
- When making an indirect chain presentation, we will modify the price sheet to exclude D/A terms, EFT, and the D/A Partners Program since this information should only be shared with the Direct Account.

51849 4444

- As information, and with AVP concurrence, you may offer a retail chain only an up-front bonus to help the account kick off the new Private Label brand based on a maximum of \$.20 per carton of projected PL sales for the first year of the Agreement. If this is done, it should be spelled out in an Addendum page with a pay back clause if the account does not reach the projected volume.
- After initial presentation, you will return the draft Agreement with appropriate blanks filled to the AMO for AVP approval. If any changes are needed to the Agreement or Addenda (separate page(s)) are required, send these also.
- Once AVP approves, AMO will return to Forsyth for final sign off and Legal Department concurrence.
- Forsyth will then forward two (2) Agreement originals, a Blank Customer Services Price File Sheet (Attachment 2), and a New Brand/Account Form (Attachment 3) directly to you for execution with instructions to return to Forsyth Operations. It is important to have both originals and any Addenda signed by the account and returned to us. If this does not happen, the account will not receive an original executed Agreement for its files.
- When the customer signed Agreements and Attachments are received, Forsyth will sign and return a fully executed original to your AMO for forwarding to you to give to the account. At this time, Forsyth will request product forecast information be generated by Customer Services/ BIAD.
- Customer Services will notify you of product availability in Public Warehouse(s) for initial ordering by you and the direct account(s). As a general guideline, it will usually require approximately three weeks from receipt of finalized Agreement before product for an existing brand is available in the Public Warehouse. A new brand request will take approximately 12 - 16 weeks.
- Forsyth will ensure that the account is added to the Target Report for volume tracking by Forsyth and the Sales Area. You will be added to the distribution list to ensure you can track the account's volume progress and you will also receive an Account Accrual report so you will know monies available to assist the account in running Private Label promotions.
- Attachment 3 will also tell you who your Customer Services Rep is for this specific account. You may call her regarding questions on Private Label shipments, Alliance Accrual balances, monthly rebates or the account's pricing in general. If you don't know who your Customer Services Rep is for an existing account, you may call one of the following Forsyth Customer Services Reps and they will help you. LuAnn Hamby, extension 3521; Donna Smitherman, extension 3078; Mabel Perry, extension 3140; or Sue Wright, extension 3545. When running promotions you should request funds from them by faxing the appropriate order form found in your Alliance Accrual book (Forsyth Tobacco Planning Guide). Please refer to FSC-122-B, dated 7/20/95 for Guide ordering. You should fill these request forms out fully to eliminate any delay in filling your orders.
- Each Sales Area has at least one Account Executive, who is familiar with the Forsyth Programs. If you have any questions or need help with a specific account, call them. They are a valuable resource to you and your Sales Area.

As we integrate Forsyth sales responsibility into your everyday accountabilities, we will truly become recognized as a three tier company and you, the Total Category Manager for our industry.
